

PROCESS: ARCHITECTURE

NAI P73

Process: Architecture is published in Tokyo. Each issue is devoted to a specific subject in architecture, landscape architecture or graphic design. The scope of the series is international and the text is printed in Japanese and English. Excellent photography and good documentation of projects make this a useful source. Listed below are the issues received in the Architecture Library in order by date of publication. (As of 1998, this series has ceased publication.)

(Only those listed with an asterisk (*) are filed on Permanent Reserve. The majority of the rest of the titles are on two hour loan and shelved upstairs. There are a few duplicates that circulate for one week.)

- 1 A Perspective of Modern Scandinavian Architecture
- 2 Mitchell/ Giurgola Architects
